

HIGH-PERFORMANCE METAL COATINGS

SHERWIN-WILLIAMS.

Want to customize the color of your Horizon Structural pre-engineered metal buildings or paint an accent or trim to match your already existing building?

No problem. Horizon Structural partners with Sherwin Williams to create awe-inspiring results. We also have a color-matching system for your convenience.

Visit your local Sherwin-Williams paint store with the color code, and the correct color will be located in Sher-Color Competitive Color Palette database.

We apologize that the paint colors displayed on our website may not accurately represent the true color of our panels. Due to variations in computer monitors and other factors, we cannot guarantee that the colors shown on the website will match the actual color of the panels. We highly recommend that you request a color swatch to view the colors in person before making a final decision.
